The cards I found at this 5410
were a most unusual
and group, all black
and white. A fresh
leaf had just withered
and the orange
seemed enthusiastic
and talkative, so
I learned all I could
while I had the chance. These
were no local news but
they are coming. I got this
for you and some
C.W. will like to
architecture scrap book
The first time we visit
Sawidley apple trees were
in full bloom & some may
right in town I was taken
down impressed. They are
still delightful. Love, Ethel.
